

John Morley (Public Health Wales)

From: FOI (Public Health Wales)
Subject: FW: Information

Please see the information that our Communicable Diseases team has produced. There is also an annual report due out next month detailing the influenza situation from the last season.

Public Health Wales regularly produces information on communicable diseases and suggest that these data could be provided as a standard information request rather than through the formal FOI route.

This is the requested information (combined sentinel GP, non-sentinel GP and hospital confirmed influenza cases):

Cases of influenza confirmed by Public Health Wales Microbiology and reported to Public Health Wales Communicable Disease Surveillance Centre between week 36 2014 and week 18 2015

Influenza A	570
Influenza B	65
Total Influenza	635

Data correct as at 21/5/2015. Based on information provided to CDSC Wales on a weekly basis from Public Health Wales Microbiology Cardiff

Further information is available from our weekly influenza surveillance report:

www.publichealthwales.org/flu-activity

Kind regards

John
