Thank you for your recent request for information.

If a person has a test for Covid-19 within Wales, but are resident outside Wales, this is recorded on our surveillance data dashboard. This information is published and updated daily and you can find that here: [Covid-19 Dashboard](#) if you click on the local authorities tab, the last entry in the table is for those resident outside of Wales and you can filter on the time period you wish to look at.

The home address is taken as the individual's local authority of residence, which would be their primary address.
