Freedom of Information request to Public Health Wales

FOI Reference:	050
Date request received	27th September 2017
Date information is due to be sent	25th October 2017

Information requested:

I would like to request the following information to be sent to me electronically to the email address above:

The key terms of each of the Filmbank and the Motion Picture Licensing Company licence for all establishments under the remit NHS Wales (for example hospitals, doctors' surgeries and dental practices), including but not limited to the term, date of termination, number of subscribers, cost per subscriber/prisons and total number of establishments included in the licence and the total cost per annum for each of the following calendar years of 2012 – 2019 (actual and anticipated).

Clarified request on 28th September 2017

It is a licence which would entitle hospitals, GP surgeries, etc. to have a TV running in public places like waiting rooms and foyers. For example the Department of Education in England has a blanket arrangement with each of these two companies to cover such use of television in schools. Does that help?

Information provided for the answer:

Thank you for your email dated 27th September. I regret to inform you that we do not hold the information you requested.

Public Health Wales has departments based in various premises across Wales. Some of these premises are controlled by a Health Board in Wales and would be

covered by the Health Board arrangements for film licenses. For the departments that are based in Public Health Wales premises, these departments would pay for their own license through their individual budget.

The cost of extracting this information to provide the figure of actual and anticipated cost of licenses per annum for the calendar years of 2012 – 2019 for all premises across Wales, then this would exceed the limit prescribed by the Act (Section 12 Freedom of Information Act 2000).

If you need any further assistance, please do not hesitate to contact us at the above address.
