In regards to your request for information under the Freedom of Information Act.

**Your Question**

1. I would like to know how many children have been born addicted to drugs in Wales between Jan 1 2010 and Dec 2015.
2. Could this information be presented per year and per NHS Trust.
3. I would also like the information to be split into which type of drug the child was addicted to.

**Our Reply**

Q1 Please see the data provided below
Q2 If information was broken down to HB area, as some of these numbers are very low, it is being withheld under s40(2) of the act, namely it would be possible that other persons personal data would be released or deductive disclosure could also identify individuals
Q3 Public Health Wales does not hold the data on the drug the child was addicted to

Information is provided for individual patient hospital admissions in Wales per year:
