Information Requested:
Thank you for that. Two things:

1) These appear to be from hospitalised patients (pillar 1) is that correct?

2) Can you separately give me the figures for non-hospital tests please (pillar 2)?

Information provided for the answer:

Thank you for your recent follow up request. I have consulted with the relevant department who have advised that:-

Pillar 1 and Pillar 2 are concepts that are more applicable in England than Wales. In Wales both community and hospital samples are tested in the NHS laboratories

I hope that this information is of assistance.
