Freedom of Information request to Public Health Wales

Information Requested:

I would like to request information regarding confirmed coronavirus cases involving staff at the North and South Wales Bank Wetherspoons in Wrexham.

At the time of writing Wetherspoons tell us three members of staff have tested positive and as result a number of other staff are self-isolating as a precaution.

Wetherspoons has said "All of the positive cases have been reported to Public Health Wales. We have discussed our operating plan with Public Health Wales and they do not require us to take any further action at this time. The Test, Trace and Protect information is available to the contact tracing team should they wish to use it."

I would like to request information via FOI on:

- What time and date and method was PHW informed of the positive cases from Wetherspoons in a first contact.

- How many confirmed cases were 'reported' at that point.

- A copy of all correspondence digital or otherwise from PHW to Wetherspoons since the first contact.

- How many people were identified as being Test Trace Protect candidates.

- As of 2pm today how many people were successfully tracked and traced as a result
Q. What time and date and method was PHW informed of the positive cases from Wetherspoons in a first contact.

The first contact directly from the company to PHW was 17:27 on 19/08/2020 via telephone.

Q. How many confirmed cases were 'reported' at that point.

Three cases were reported.

Q. A copy of all correspondence digital or otherwise from PHW to Wetherspoons since the first contact.

There is no written correspondence from PHW to Wetherspoons.

In regards to the other questions you have asked around the Test Trace Protect process, this is being handled by the local authority in Wrexham and we do not hold this information, although it may be passed to us in the future. You can contact Wrexham Council FOI team on foi@wrexham.gov.uk.
