**Information Requested:**

I would like to have information about the situation and statistics for people with learning disabilities and Covid19. I received the information that by last week the 14/05/20 496 people (this is close to 50%) died on C19 had learning disabilities. This is a figure which caused alarm in the community and would need to be addressed. I have tried to find myself the answer, but the information I find is neither localised nor specific enough.

Please support me with the relevant information.

**Information provided for the answer:**

Thank you for your recent request. Unfortunately Public Health Wales does not have access through routine surveillance to the information requested. You may find more data would be held by the individual health boards or the Office of National Statistics.

In the event that you haven’t already contacted the various Health Boards in Wales, I have provided links to their contact details below.
