**Information Requested:**

I would like to request a freedom of information report relating to Diabetes during this Covid 19 pandemic.

I would like to know since 23rd March 2020 and 1st June 2020.

How many calls related to diabetes concerns have you taken at PHW?

How many deaths with diabetes listed as a co-morbidity have there been in Wales?

How many hospital admissions with covid 19 have there been for people with diabetes in Wales?

I am a member of the Aneurin Bevan Diabetes Patient Reference Group and these figures would be most interesting to discuss as a group.

**Information provided for the answer:**

Thank you for your recent request. Unfortunately we are unable to answer your questions as we do not hold the information.

Through the routine Covid-19 surveillance, Public Health Wales don’t have access to the information on co-morbidities and Covid-19. The Office of National Statistics may have the information you require.

Unfortunately we do not have access to the details of patient’s hospital admissions. In order to obtain that information you would need to contact the
individual health boards who may be able to help. For your convenience I have listed their contact details below:
