

Staphylococcus aureus Blood Stream Infection (Bacteraemia)
Surveillance

Abertawe Bro Morgannwg University Health Board Data
per 100 000 Bed Days

Rates of *Staphylococcus aureus* Blood Stream Infections per 100 000 bed days

For the *Staphylococcus aureus* blood stream infection (bacteraemia) surveillance scheme, rates produced for reports have historically used 1000 bed days as the standard comparison denominator. However, the Top Ten Blood Stream Infection (bacteraemia) surveillance uses 100 000 bed days as the standard comparison denominator. To allow comparisons between the two schemes, the *Staph. aureus* data published for each Health Board has been recalculated to be per 100 000 bed days. However to allow comparison with the English scheme, is presented per 10,000 bed days please divide these Welsh Health Board figures by 10.
